adequate gripper

PROOFS:

One set of digital page dylux (or equal) proofs OR one set of film-based page dylux (or equal) proofs of each label (58 total).

Send proofs together with the furnished media (copy, transparencies, electronic files) directly to: NLS/BPH, Attn: Corriece Gwynn, 1291 Taylor Street, NW, Washington, DC 2011. Contractor must call GPO Contract Compliance Section at (202) 512-0520 immediately upon sending/delivering proofs and immediately upon notification that the proofs are available for pickup at the department. Proofs will be withheld not more than 3 workdays from receipt in the department to when they are made available for pickup at the department. CONTRACTOR MUST NOT PRINT PRIOR TO RECEIVING AN "OK TO PRINT".

PRIOR TO PRODUCTION SAMPLES: The sample requirement for this contract is not less than 10 printed sample labels of any one label. Each sample must be constructed as specified using the form, materials, equipment, and methods of production which will be used in producing the final product. All samples shall be manufactured at the facilities in which the contract production quantities are to be manufactured.

Samples will be inspected and tested and must comply with the specifications in all respects. If machine processing of the final product is indicated in the specification, the samples will be tested and must function satisfactorily on the equipment indicated.

Prior to the commencement of production of the contract production quantity, the contractor shall submit samples directly to: NLS/BPH, Attn: Corriece Gwynn, 1291 Taylor Street, NW, Washington, DC 2011. Contractor must call GPO Contract Compliance Section at 1-800-424-9470 or 9471, or email information to contractcompliance@gpo.gov immediately upon sending/delivering samples and immediately upon receiving approval and/or notification that the samples are available for pickup at the department. The container and accompanying documentation shall be marked PREPRODUCTION SAMPLES and shall include the GPO jacket and purchase order. The samples must be submitted in sufficient time to allow Government testing of the samples and production and shipment in accordance with the shipping schedule.

The Government will approve, conditionally approve, or disapprove the samples within 4 workdays of the receipt thereof. Approval or conditional approval shall not relieve the contractor from complying with the specifications and all other terms and conditions of the contract. A conditional approval shall state any further action required by the contractor. A notice of disapproval shall state the reasons therefor.

If the samples are disapproved by the Government, the Government at its option may require the contractor to submit additional samples for inspection and test, in the time and under the terms and conditions specified in the notice of rejection. Such additional samples shall be furnished, and necessary changes made, at no additional cost to the Government and with no extension in the shipping schedule. The Government will require the time specified above to inspect and test any additional samples required.

In the event the additional samples are disapproved by the Government, the contractor shall be deemed to have failed to make delivery within the meaning of the default clause in which event this contract shall be subject to termination for default, provided however, that the failure of the Government to terminate the contract for default in such event shall not relieve the contractor of the responsibility to deliver the contract quantities in accordance with the shipping schedule.

In the event the Government fails to approve, conditionally approve, or disapprove the samples within the time specified, the Contracting Officer shall automatically extend the shipping schedule in accordance with article 12 "Notice of Compliance With Schedules" of contract clauses in GPO Contract Terms (GPO Pub. 310.2, effective December 1, 1987 (Rev. 9-88)).

Manufacture of the final product prior to approval of the sample submitted is at the contractor's risk. Samples will not be returned to the contractor. All costs, including the costs of all samples shall be included in the contract price for the production quantity.

All samples shall be manufactured at the facilities in which the contract production quantities are to be

manufactured.

PACKING:

Packed shipping containers shall not exceed 40 lbs.

DISTRIBUTION:
